To all the directors

The municipality's push to rush through major bylaw and zoning changes without proper due diligence or meaningful consultation is deeply concerning.

Last-minute meetings, limited-capacity venues, and rushed timelines do not constitute genuine public input. These are not minor tweaks — these are significant changes that will impact every landowner in the area.

Yes, there is an election coming, but that is not justification to force decisions through just to check a box. Responsible governance means taking the time to listen, engage, and get it right.

Do the right thing: pause the process and seek clear, informed direction from the taxpayers and homeowners who will be affected.

Thank you

Joanne Ellison
