I am writing to express my strong objection to your decision to vote against holding a public hearing on the CZB affecting Area G & H. This decision denies residents the opportunity to voice concerns on a matter with significant long-term consequences for our community.

With a potential looming energy crisis, now is *not* the time to be restructuring land use—especially when we lack the necessary infrastructure to support these proposed changes and bylaws. Moving ahead under these conditions is not only premature but potentially irresponsible.

I strongly urge you to table this bylaw until after the upcoming local government elections, when proper public engagement, transparency, and accountability can be ensured.

Attempting to implement bylaws of this magnitude, while concurrently trying to bypass public input is extremely underhanded and disingenuous.
