It is a criminal act to take away our ability to have our own food security, especially when we own our own acreage, regardless of residential or ALR zoning, we should be able to produce our own food without your control or interference. There is no reason a person who owns an acreage should not be able to have a rooster and more than 6 hens, or keep bees. This is absolutely wrong, and we, the community will not stand for this. You can not control our hobby farms or our ability to feed ourselves. you have no right. You have all lost my vote and my confidence.

SHAME ON ALL OF YOU.
