I'm writing to urge you to please oppose the rezoning of CVRD properties that will affect many residents and their poultry, waterfowl, and livestock, thus also stripping them of both their income and beloved pets. In times of struggle, when food prices are through the roof, we should be supporting agriculture, encouraging farming, raising animals, and growing food. Creating healthier and more sustainable futures means allowing residents the opportunity to produce more for themselves and their neighbours.

Please oppose this preposal.
