To whom it may concern;

As a member of the beautiful Cowichan valley it's my duty to participate in legislation that regulate our community. I have lived here for a decade, meeting neighbors who have become friends, supporting local businesses and watching them thrive and enjoying where I've chosen to make home. This new bylaw change threatens all I respect about community.

The damage this will cause to families will be incomprehensible and I don't believe your department has taken this into consideration.

Families in this region and across the island have been struggling financially since covid. The cost of housing has doubled, groceries have skyrocketed and supplies have become so expensive many can't obtain them.

These bylaw changes push this struggle further and I fear for many to the breaking point. Homelessness and hunger are around the corner and I don't believe our government can afford to assist community members this will displace and families this will destroy.

I implore you to reevaluate the potential impact this will have on the community you're sworn to serve. Our best interest should be your only concern. And this is not in our best interests whatsoever. Please show our community your intent is to support us, not to be our overrulers.

I expect that our community will have the opportunity to discuss our concerns over this in person and look forward to having some form of hearing over this matter.

Eat well,
The Wild Roost
Jody
