Drifters has been a staple in our community for a time. We frequent them every summer and I feel as though that accommodations and variances should be included in the upcoming bylaw changes. For places such as this, Drifters should be allowed to not be inhibited from continuing its current place and times of operation.

These bylaws need to consider the amount of time that a small business owner puts into their own business, be considerate of the fact that they hang their own shingle instead of looking for existing arrangements of "finding an employer " such as government employment, and also respect existing arrangements where they're not causing any problems, difficulties, or other adverse effects.

Please consider every aspect of small business ownership and home ownership when implementing rules, laws, and regulation of this nature. You will never please everyone, but laws need to reflect the will of the people and pay attention to existing arrangements.

Hopefully you've heard enough from the public at this point so that this specific bylaw is revisited and implemented properly with consideration.

Thanks very much for your attention and consideration to local small businesses!
