Subject: not ok

You don't often get email from [REDACTED] [Learn why this is important](#)

Please file my comments under Public [taxpayer] Input. I am not an afterthought or a box to check off on a tick sheet under Public Consultation.

If I want something from you, I will ask. If you come through with granting my request, I will pay for it. I did not ask for this, nor did anyone I know.

Your expert consultants and bureaucrats have no mandate to speak for me and create documents that lie outside of our understood form of governance.

Your proposed by-law and zoning changes far exceed the scope as understood and accepted by taxpayers.

It is very clear that challenges already are underway by concerned citizens.

I, for one, am tired of your dismissal of genuine concerns. Many now are digging deep into the legalities and implications of many if not all of these proposals and sharing their concerns far and wide.

Many legal concerns are being shared with the public, including, Violation of Charter Rights, Property Rights, Civil Rights and fairness.

This appears primarily as a social engineering document and a potential lucrative source of excessive cash flow. Governance by forced compliance and fear.

I am requesting that this proposal be removed from Board discussions, all related Town Hall Meetings be cancelled and robust discussion be delayed until after the October election.

In the words of former Area I Director, Klaus Khun, "We must stop Empire Building by CVRD" Sadly Klaus has passed away but hundreds now are stepping up to heed his warning and take action.
