I am writing to register my formal opposition to the proposed Comprehensive Zoning Bylaw No. 4710. This 329-page document is an unacceptable overreach that ignores the basic realities of rural life, specifically privacy, permission systems and policy regarding livestock restrictions and fence height limits that invite wildlife damage.

Please record my objection to these predatory fines and administrative policies before any further steps are taken to finalize this bylaw.

Additionally, I will add that I have never paid attention to CRVD by laws until now. As a young person focused on career and family this has not been at the top of my concern list historically. However, you have to overreach pretty far to motivate people of my generation to take notice of policy at this level and I think I speak for all locals in my age bracket that if you move forward with these changes it will be extremely hard to justify not starting life in another district without ludicrous invasive policy. Please for once consider the generation that has already been at a disadvantage getting going and further more re consider not moving forward with policy that takes away exactly what makes the CRVD so special.

Thank you for you time.
