Subject: COMPREHENSIVE ZONING BYLAW NO. 4710

You don't often get email from [REDACTED] [Learn why this is important](#)

Hello Mike,

I have lived in the Cowichan Valley my whole life. I have always bought my eggs from local farm stands! Never from a store in 50 years!! If these changes are made this would be impossible to find eggs for my family. I am also interested in getting chickens for my family in the future so that my kids can learn how to raise and take care of them. I live in a rural area so that I am able to have a garden and create food for my family. I have and need to have deer proof fencing in order to protect my garden. I expect my neighbors to be able to do the same if they wish.

Gardens need Bees and am all for the property owners that want to raise them with no restrictions. They don't bother people.

I do not agree with most of the proposed document. The way housing costs and food have skyrocketed over the last few years I believe the CVRD should be increasing the their ideas and efforts in improving these areas rather than limiting property owners ability to make decisions for their families and other community members.

I am not in favor of the changes that effect my food sustainability for my family on my property.

Naomi Dueck
