To the CVRD Board, Planning Staff, and Legislative Services,

I am writing as a concerned resident regarding the proposed zoning bylaw.

I am asking the CVRD to slow this process down, clearly explain how these changes will affect residents and property owners, and remove or revise sections that create unnecessary restrictions, confusion, or overreach.

A bylaw of this size and importance should not be rushed through without proper public understanding and meaningful public input. Please make sure the people affected are genuinely heard before moving this forward.

Sincerely,  
Genevieve Price  
Sahtlam
